

ABOUT RIVERMEAD

On behalf of the Rivermead Golf Club, it is with great pleasure that we welcome you as a guest of our golf club. Founded in 1910, Rivermead is one of the first clubs and best golf courses in the National Capital Region. Rivermead offers a relaxed, welcoming atmosphere as well as a convenient location less than 15 minutes from downtown. The Club's objective is to provide members and guests – whether individuals, couples, families or businesses – with the best golf, dining and social experience in the region.

Rivermead is located at [150 chemin Rivermead, Gatineau, QC - Google Maps](#) about 10 km from downtown Ottawa-Gatineau.

For over 100 years, Rivermead members have enjoyed playing golf on the same parcel of land in Gatineau (Aylmer), only a few hundred metres from the north shore of the Ottawa River. Laid out over gently rolling terrain, the par 72/75 (men/women) layout is easily walked. The course has four sets of tees ranging from 6,715 yards from the back to 4,730 yards from the forward-most tees. Slope ratings for men range from 142 to 117 and 148 to 120 for women. Rivermead also has an excellent practice facility which includes a driving range, a short game facility and two putting greens. The following are links to the course layout and score card.

PACE OF PLAY

Tee intervals vary from 8 to 10 minutes depending on the time of the day. Starters will not allow players out sooner. When a starter is not on duty, players should wait for the group to be past the fairway bunker before teeing off.

Keep up with the group in front of you.

A round of golf at Rivermead should be played in **less than four hours**.

Clocks on the 5th, 7th, 10th, 14th and 15th tees are set according to tee time. Your group should reach each of those tees at or ahead of your tee time. If the time on the clock is later than your tee time, you are behind acceptable pace and need to play faster.

Rivermead accepts and encourages the practice of ready golf to help ensure the pace of play at less than four hours.

Groups who are on pace but have holes open in front of them and faster groups behind them should endeavor to wave faster groups through.
